6	COURSE OBJECTIVES
7	LAB ACTIVITIES

course

Hands-on, technical instruction covering installation, configuration, maintenance, troubleshooting and administration of AudioCodes equipment in a SfB environment.

Student profile

Hands-on, technical instruction covering installation, configuration, maintenance, troubleshooting and administration of AudioCodes equipment in a SfB environment.

Products

Microsoft Unified Communications Networks, MediaPack-11x, Mediant 800B, Mediant 1000, Mediant 2000, Mediant 2600, Mediant 3000 and Mediant 4000.

Duration

4 days.

Certification

ACA (AudioCodes Certificate Associate) certification exam.

A man in a dark suit stands with his back to the camera on a rooftop balcony, looking out over a city skyline. The sky is overcast. A green rectangular block is visible in the top left corner of the page.

Pre-requisites

Students are expected to have an applicable professional background with a minimum of one year practical experience with:

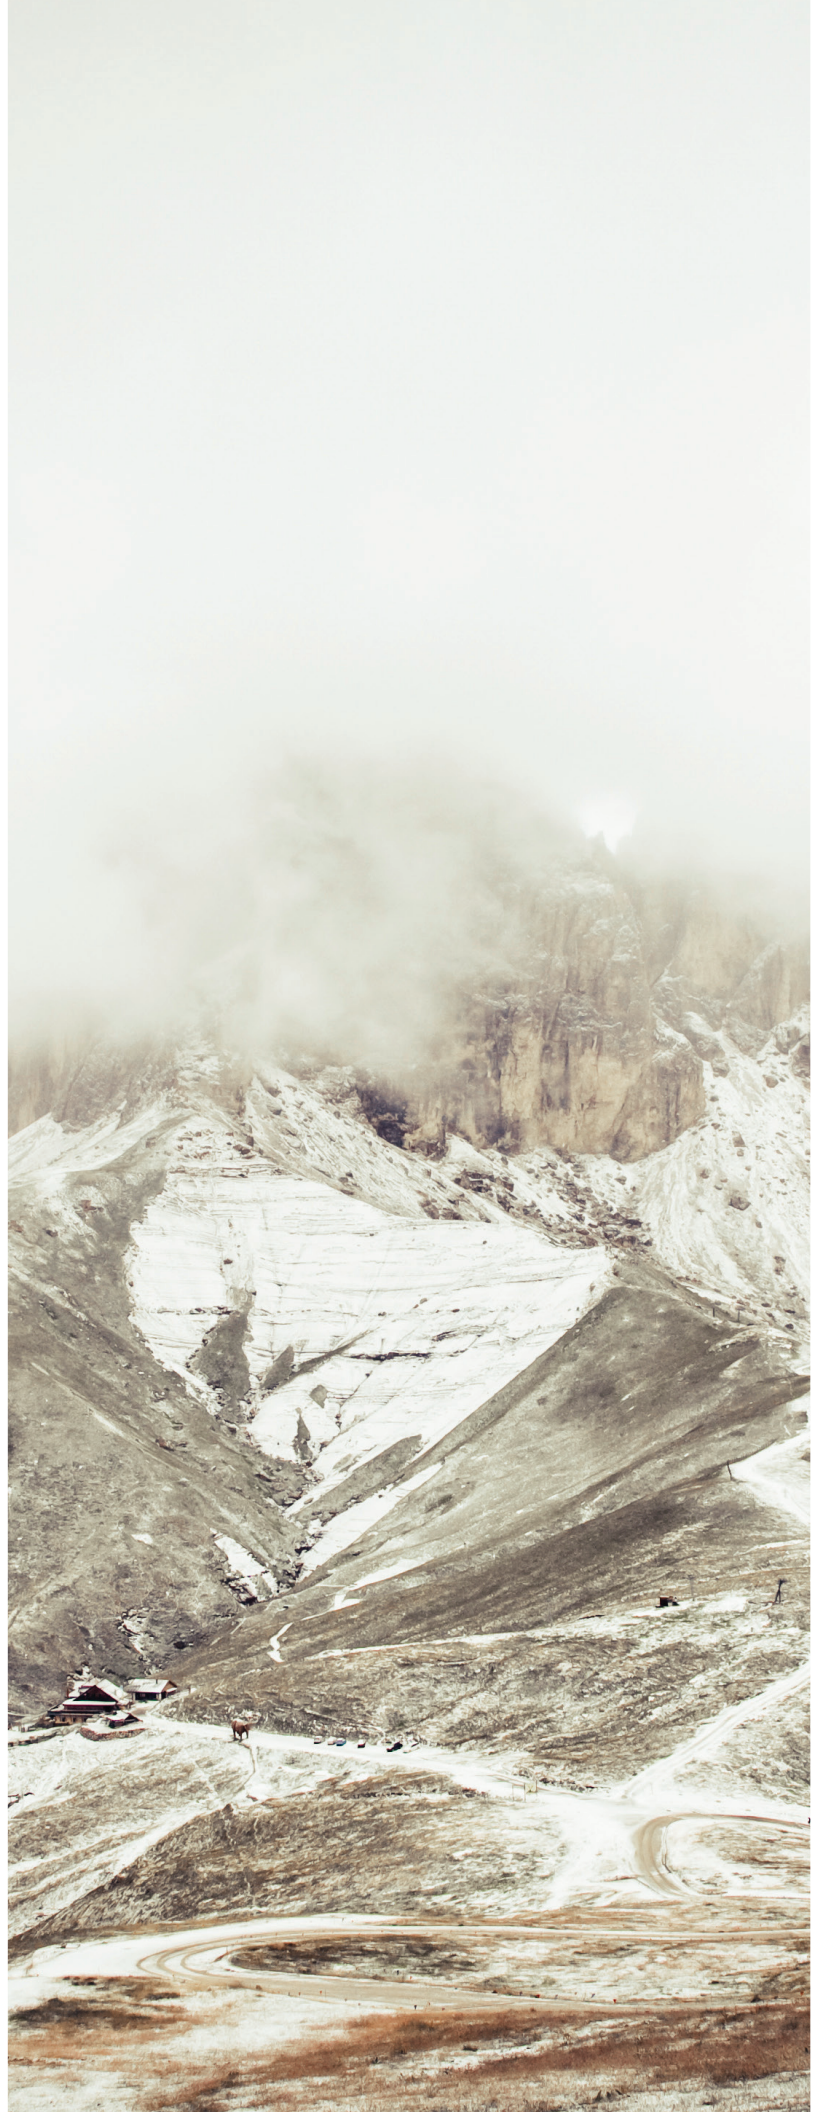

- *PSTN protocols and knowledge of analog and digital telephony systems;*
- *VoIP and SIP network architecture;*
- *Understanding of SIP control protocol signaling stack;*
- *Knowledge of IP networking.*

course Objectives

Students are expected to be active participants in the learning process. Emphasis is placed on diagnostic tools and troubleshooting strategies to help students become self-sufficient in their use and support of AudioCodes products in a Lync environment.

Upon completion of this course, students will be able to:

- *Install and configure AudioCodes Enhanced Gateway using management tools*
- *Demonstrate an understanding of the operating, maintenance and monitoring tools used on AudioCodes Enhanced Gateway*
- *Troubleshoot and debug AudioCodes Enhanced Gateway*
- *Integrate the Mediant Gateways in Unified Communication environments that require integrated voice components*
- *Deploy and configure the Survivable Branch Appliance (SBA)*
- *Configure an integrated dial plan between the Enhanced Gateway and Lync 2013/SfB/SBA components to support PSTN, TDM PBX and Local VoIP connectivity for Microsoft Enterprise different voice scenarios*
- *Become familiar with Lync 2013/ SfB related voice configuration aspects*
- *Understand AudioCodes solutions for various customer voice scenarios.*

Lab **activities**

- MP-11x and Mediant 1000B Configuration Setup;
- SBA Installation and Configuration;
- Enhanced Gateway Configuration;
- SIP Trunking Configuration.

Fee, **location and other**

- *Including training equipment for lab exercises (trainee bring their own laptop);*
- *The course is subject to a minimum number of attendee;*
- *Fee per trainee.*
